

Subject Files Index

Windsor Historical Society
96 Palisado Avenue, Windsor, CT 06095

Scope and Contents

In many ways, the Subject File is the heart of the Windsor Historical Society Research Library. These vertical files contain an eclectic mix of newspaper clippings, research notes, ephemera, correspondence, photos, obituaries, and primary documents pertaining to hundreds of topics in Windsor's four hundred year history. The files also contain extensive cross references to other materials in the breadth of the Society collections. The Subject Files are arranged alphabetically. Broad categories such as **Schools** or local **Businesses** are subdivided for more targeted research. A particular strength is the **Houses** series with documentary material by address for over 250 homes, businesses, or now-demolished properties. The analogous Family File contains similar research materials with folders arranged alphabetically by surname. The Photograph Files are physically separate, but are ordered with parallel headings to the Subject and Family Files.

The Subject File Index lists all the folder headings in bold typeface. Extensive cross reference terms in plain typeface should lead most researchers to the appropriate files. Do not hesitate to consult the library staff for assistance or additional relevant suggestions. A listing of the surnames in the Family File is in preparation.

WINDSOR HISTORICAL SOCIETY - SUBJECT FILES INDEX

2

Bold lettering indicates there is a subject file with this heading.
Terms in unbolded, plain lettering show a cross reference to the relevant subject file heading.
